

In Case of an EMERGENCY...

The time to **call 911** is when you or someone near you is in serious danger and/or is hurt badly and in need of help **RIGHT NOW!**

If something like this happens, try to stay calm so that the person who answers your 911 call can more quickly get help to you. The first and most important thing they need is your **ADDRESS**, so they know where to send help. They may ask more questions as they get help to you.
